

IX Black Holes Workshop

In celebration of the 100 years of the Schwarzschild solution

19-20 December 2016, Guimarães, Portugal

From astrophysics to high-energy physics, from information theory to quantum gravity, black holes have acquired an ever increasing role in fundamental physics, and are now part of the terminology of many important branches of observational, theoretical and mathematical physics. This workshop aims at bringing together experts about black holes in all their aspects.

SCIENTIFIC COMMITTEE

- * Vítor Cardoso (IST, U. Lisboa)
- * João Lopes Costa (ISCTE, Inst. U. Lisboa)
- * Alfonso García-Parrado (U. Minho)
- * Carlos Herdeiro (U. Aveiro)
- * José Sande Lemos (IST, U. Lisboa)

LOCAL ORGANIZING COMMITTEE

- * Irene Brito (chair)
- * Viktor Czimmer
- * Alfonso García-Parrado
- * Filipe Mena
- * Filipe Moura

SPONSORS

FCT Fundação para a Ciência e a Tecnologia
MINISTÉRIO DA EDUCAÇÃO E CIÊNCIA

sociedade portuguesa de
relatividade e gravitação
