

Timetable for the Contributed Talks

Days in Logic, Braga, 2004

Thursday, 22nd January

- 17h50 *The Constructive Coq Repository at Nijmegen*
Luís Cruz-Filipe, Computer Science, Univ. of Nijmegen, Netherlands
- 18h15 *Some Practical Considerations about the Use of the Curry-Howard Isomorphism on a Industrial Size Case*
Simão Melo de Sousa, Dep. de Informática, Univ. da Beira Interior
- 18h40 *Modal Logic as a Specification Tool: a Case Study Using Deontic and Action Logics*
Olga Pacheco, Dep. de Informática, Univ. do Minho
-

Friday, 23rd January

- 17h20 *A Class of Riemannian Integrable Continuous Functions in Weak Analysis*
Ana Nunes, Dep. de Matemática, Univ. do Algarve
- 17h45 *Weak Theories of Arithmetic and the Counting Hierarchy*
Gilda Ferreira, CMAF, Univ. de Lisboa
- 18h10 *Perfect Secrecy Based on Kolmogorov Complexity*
Luis Antunes*, Sophie Laplante⁺, Liliana Salvador*
* Dep. de Ciência de Computadores, Univ. do Porto & LIACC
⁺ Lab. de Recherche en Informatique, Univ. Paris-Sud, France
-

Saturday, 24th January

- 11h20 *Weak Linearization of the Lambda-Calculus*
Sandra Alves, Mário Florido, Dep. de Ciência de Computadores, Univ. do Porto
- 11h45 *Normalization by Evaluation for $\lambda^{\rightarrow,2}$*
Tarmo Uustalu*, Thorsten Altenkirch⁺
* Inst. of Cybernetics, Estonia
⁺ Univ. of Nottingham, U.K.
- 12h10 *Extensible Overloaded Definitions*
Maria João Frade, Dep. de Informática, Univ. do Minho
- 12h35 *Applicative Theories*
Reinhard Kahle, Dep. de Matemática, Univ. de Coimbra
-
